DESIGN, PATTERN & SHADE VARIATION GUIDE

Current development efforts have made ceramic tiles to resemble and look authentically identical to natural material (Stone, Wood, Fabric), and it has become increasingly difficult in many cases, to distinguish between two.

Recognising this situation, it is necessary to be informed on the grade of design & pattern variation that is expected from these products. As a general reference, the design & Pattern guide below classifies a scale of ranges according to the degree of variation.

V1 Uniform Appearance

V2 Slight Variation

V3 Moderate Variation

V4 Substantial Variation

The classification is as follow:

V1 Minimal Variation **V3** Random Variation **V2** Slight Variation **V4** Substantial Variation

High Definition Image

While laying the tiles please follow the arrow on the back of the tiles.

For removing the wax from the surface of the tiles please use the soft cotton cloth for rubbing with any boric/talk powder
