Be inspired by Nature

Natural-looking tiles are one of the key trends for indoor and outdoor floor and wood is one of the most popular choice thanks to its versatility and beauty. Combining the aesthetic quality of natural timber with the durability of vitrified tiles, wood effect tiles are the perfect option when replacing a floor in a renovation project or laying a new floor in a newly built property, as it helps in creating your own personal style. Parquet floor tiles can give any room the elegant look of hardwood, in an eco-friendly new way. It's waterproof, highly resistant to scratches and chemicals, easy to clean and resistant to heat and frost. It definitely looks like a good idea.

DESIGN, PATTERN & SHADE VARIATION GUIDE

Current development efforts have made ceramic tiles to resemble and look authentically to natural material (Stone, Wood, Fabric), and it has become increasingly in many cases, to distinguish between two.

Recognising this situation, it is necessary to be informed on the grade of design & pattern variation that is expected from these products. As a general reference, the design & pattern guide below classifies a scale of ranges according to the degree of variation.

V1 Uniform Appearance

V2 Slight Variation

V3 Moderate Variation

V4 Substantial Variation

The classification is as follow:

V1 Minimal Variation V2 Slight Variation V3 Random Variation V4 Substantial Variation

High Definition Image

While laying the tiles please follow the arrow on the back of the tiles. For removing the wax from the surface of the tiles please use the soft cotton cloth for rubbing with any boric/talc powder
