**UNIT-3
FOR ALL INDIA**

Mr. Shreekant Somany
Chairman & Managing Director

Mr. Abhishek Somany
MD & CEO

WHO WE ARE

With a humble beginning in 1969, Somany Ceramics Limited has been a front-runner serving millions of customers worldwide. Riding high on Late Shri H. L. Somany's dream, the company not only achieved unparalleled success but also established its presence as an unchallenged leader in the Indian tiles sector.

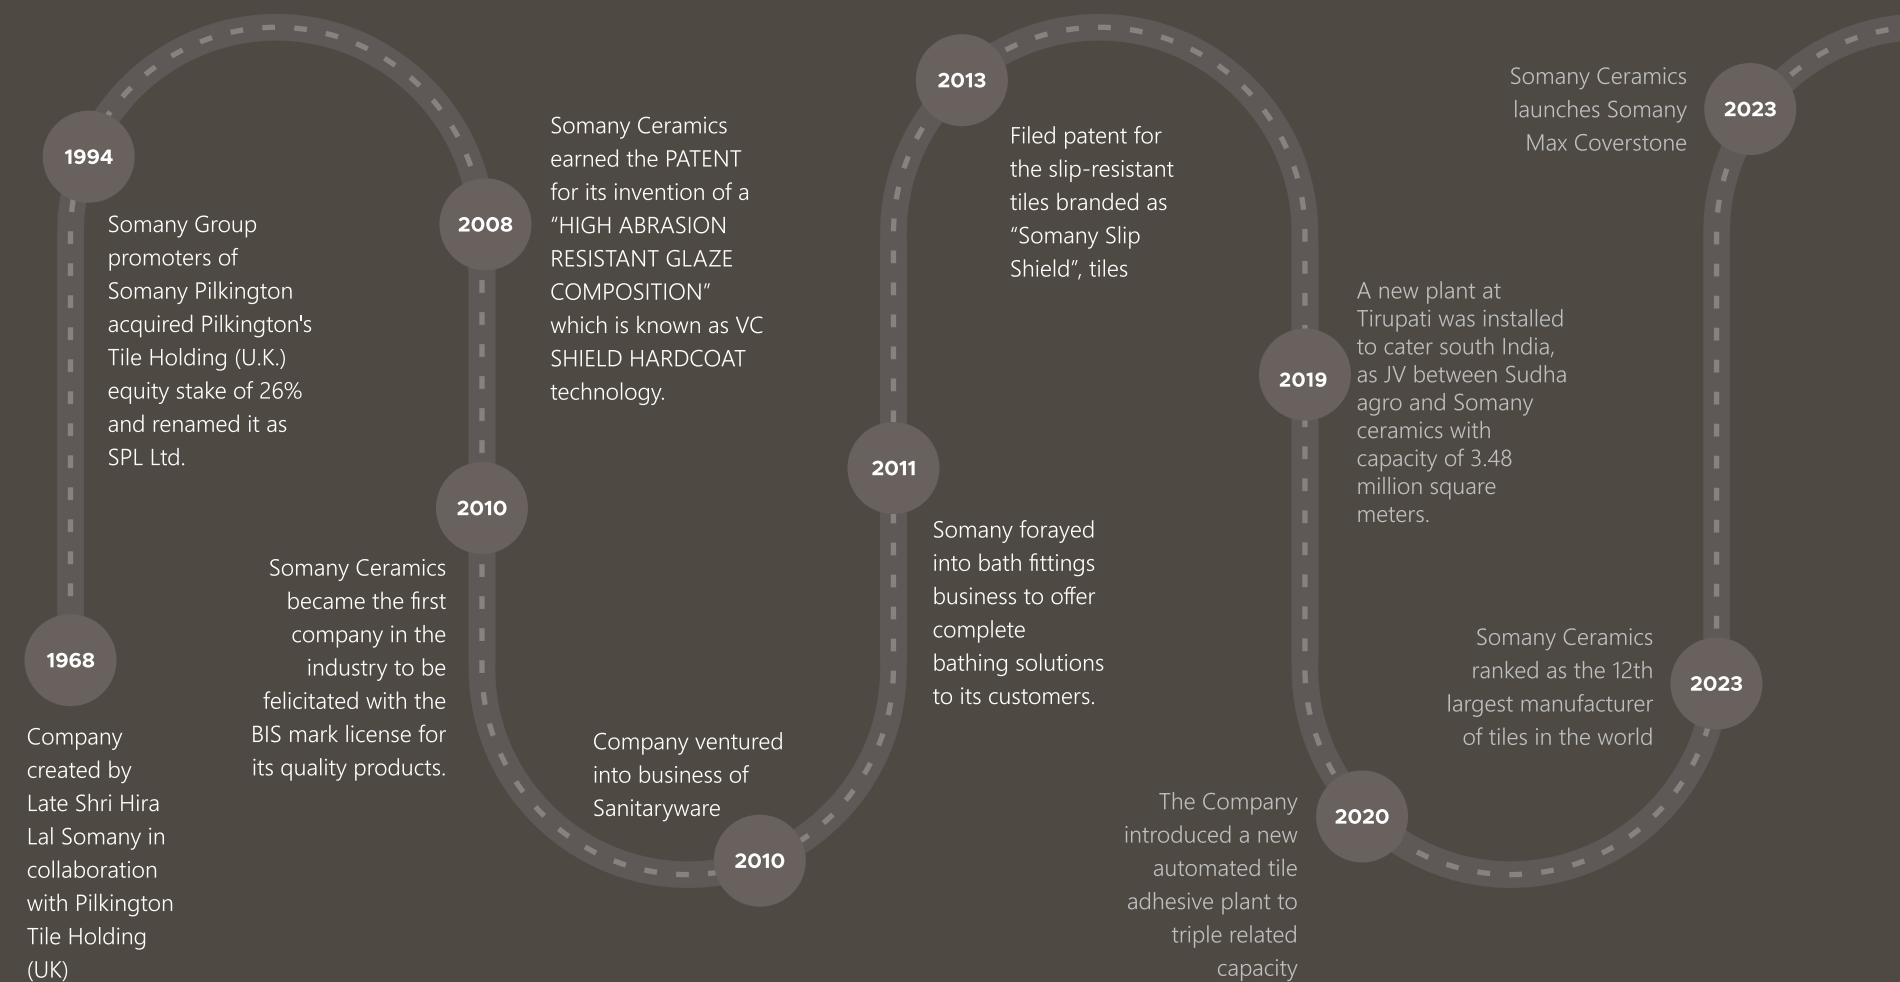

Catering to the needs of its esteemed customers, Somany has always tried to relentlessly set benchmarks and create trends in the home interior segment. Brand Somany has captured the memories of millions of its customers with their joy and emotions, and the brand love it enjoys is its true testimony.

Somany Ceramics has 11 manufacturing facilities spread across India, catering to domestic as well as international demand. It has cemented its position in the industry as the producer of the highest-quality ceramic glazed tiles, vitrified tiles, porcelain floor tiles, bathware and adhesives. Somany started with a clear distinctive position, that of being innovative, distinctive, and close to its customers.

To sustain a dream of such a magnitude, it is always important to stay ahead of time. This truth, realized by Late Shri H. L. Somany is still being executed through continuous innovation, ignited with a passion for excellence.

With Late Shri H.L. Somany as Founder, Shri Shreekant Somany as the CMD, and Shri Abhishek Somany as the MD and CEO, the company is heading towards unprecedented expansion and growth.

JOURNEY OF 5 DECADES

Endless
adventures

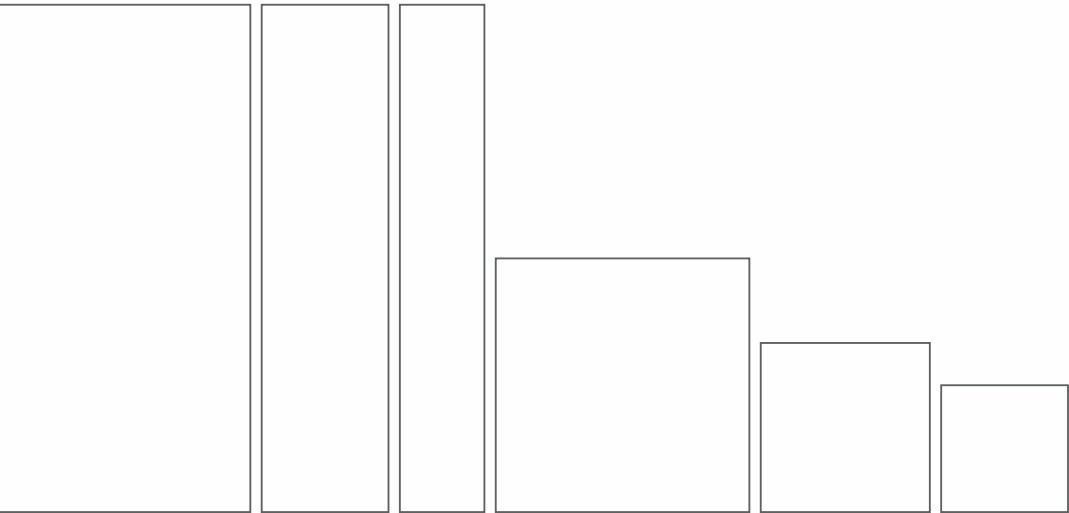

HEAVY DUTY OUTDOOR VITRIFIED TILES

When it's about strength and durability, it's one and only "SomanyDurastone".

Flaunt the natural stone-like tile that can transfigure your living or working space. A heavy duty vitrified tile, ideal for outdoor areas with stunning designs and shades. Whether it's the contemporary appeal of rectangles or the understated elegance of squares, the natural beauty of the stone-tile speaks for itself.

Have a look through, and be inspired by what can be achieved through combining the raw beauty of nature with quality craftsmanship.

Available Sizes

600x1200mm | 300x1200mm | 200x1200mm | 600x600mm
400x400mm | 300x300mm

Available Thicknesses

16mm-Thickness

15mm-Thickness

12mm-Thickness

10mm-Thickness

From petite pathways to grandiose terraces, our outdoor tiles come in a range of sizes to suit any space. With varying thickness options, rest assured, our tiles are crafted to withstand the elements while adding beauty and functionality to your outdoor oasis. Elevate your outdoor living experience with our versatile and durable tile solutions

Laying Patterns

LAYING ON GRASS

Dry laying on grass allows the creation of paths and areas that integrate well both with the surrounding landscaping and a variety of architectural contexts.

Used in this way, is ideal not only for the gardens and paths of homes and residential complexes, but also for those of larger private and public parks and leisure areas.

- The key benefits are:
- Fast installation
 - Easy removal and repositioning
 - Cost savings, as no skilled labour is required
 - Immunity to moulds and chemicals

LAYING ON PAVINGS

Prepare the substrate by laying a screed with the correct gradient above the existing surface. Apply a waterproof barrier layer to prevent seepage and ensure effective rainwater drainage.

- The key benefits are:
- They are able to house electric wiring and water supply and drainage pipes
 - They ensure easy maintenance; individual panels can be lifted as needed
 - No need to demolish the existing floor prior to installation
 - Better thermal insulation thanks to the ventilation below the paving
 - Flat laying across the entire surface
 - Rainwater drains along the grouts thanks to the gradient of the substrate
 - No need for settling times so there is no risk of water seepage into the screed.

Ensuring
Lasting *beauty*

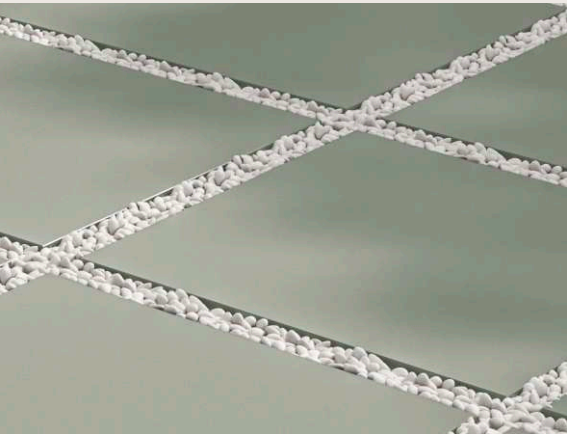

LAYING ON SAND

Dry laying on sand is ideal for creating paths and walkways within beach resorts. Since the system is so flexible, slabs can be removed and relaid in new positions for different holiday seasons. Light colours are recommended as they become less hot than darker shades.

- The key benefits are:
- Fast installation
 - Easy removal and repositioning
 - Cost savings, as no skilled labour is required
 - Resistance to salt spray and weather
 - Skid resistance.

LAYING ON GRAVEL

Dry laying on gravel is a practical, versatile solution that provides a contemporary effect, bringing added style to patios, paths, pedestrian walkways and courtyards and relaxation areas in general.

- The key benefits are:
- Fast installation
 - Easy removal and repositioning
 - Cost savings, as no skilled labour is required
 - Effective rainwater drainage through the open joints
 - Creation of seamless surfaces, since expansion joints are not required.

LAYING ON ADHESIVE

Traditional laying with adhesive on concrete screeds is ideal for outdoor areas used by vehicles, such as the entrances to garages, car parks and yards.

- The key benefits are:
- The system's excellent resistance to dynamic and concentrated loads
 - Option for use of the same material in pedestrian and vehicle areas
 - Suitability for both residential and public or retail locations.

Elements of Great Design

We infuse a delightful blend of traditional design with technical craftsmanship of tough full body tiles that exude beauty and strength unlike others. The textural complexity interwoven in between the design makes up a detailed execution of the tile design. The art of conforming to the standards of excellence can be explicitly seen in this tile range of 16mm & 10mm thickness. Crafted especially for outdoor usage with heavy duty application solutions for parking, step risers and similar application areas. Come, look more into the blended beauty of these tiles.

DESIGN, PATTERN & SHADE VARIATION GUIDE

Current development efforts have made ceramic tiles to resemble and look authentically identical to natural material (Stone, Wood, Fabric), and it has become increasingly difficult in many cases, to distinguish between two.

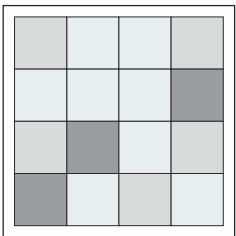

Recognising this situation, it is necessary to be informed on the grade of design & pattern variation that is expected from these products. As a general reference, the design & Pattern guide below classifies a scale of ranges according to the degree of variation.

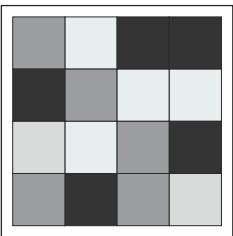

V1 Uniform Appearance

V2 Slight Variation

V3 Moderate Variation

V4 Substantial Variation

The classification is as follow:

- V1 Minimal Variation
- V2 Slight Variation
- V3 Random Variation
- V4 Substantial Variation

High Definition Image

While laying the tiles please follow the arrow on the back of the tiles.
For removing the wax from the surface of the tiles please use the soft cotton cloth for rubbing with any boric/talk powder. And use with spacer to look good

Water Absorption	Avg. 0.5 %, Individual 0.6% max	Avg. 0.5 %, Individual 0.6% max	Av < 0.5 %	ISO 10545-Part 3/ IS 4457 Annex C
Modulus of Rupture [N/mm²]	Av 35, Individual 32 min	Av 35, Individual 32 min	Avg.> 35	ISO 10545-Part 4/ IS 4457 Annex D
Breaking Strength in N	Min 1300 N	Min 1300 N	> 1500N (Largo,Step,Riser) Min, 1800 N (For10 mm) Min, 2500 N (For 12mm) Min, 4000 N (For 15mm)	
Moisture Expansion in mm/m	Test Method Available	Not Available	Max,0.02	ISO-10545-Part 10
Scratch Hardness of surface (Mohs)	N/A	Not Available	Min-6	IS 13630 Part-13
Resistance to Deep Abrasion (In mm³)	Max. 175	Max. 175	Max. 140	ISO 10545 -Part 6/ IS 4457 Annex E
Coefficient of linear thermal expansion from embiant temperature to 100º C	Test Method Available	Not Available	Max 6 X 10 ⁻⁶ K ⁻¹ max	ISO 10545-Part 8
Thermal Shock Resistance	Required	Not Available	10 cycle passed	ISO-10545-Part 9
Crazing Resistance	N/A	Not Available	4 cycle passed	ISO 10545-Part 11
Imapct Resistance as Co-efficient of Restitution (COR)	Test Method Available	Not Available	Min 0.55	ISO 10545-Part 5
Frost Resistance	Required	Not Available	100 Cycle Passed	ISO 10545-Part 12
Chemical Resistance (glazed Tiles)				
Stain Resistance	Min Class 3	Not Available	Min Class 2	ISO 10545-Part 14
Resistance to household chemicals	Minimum B	Test Method Available	Class UA	ISO 10545-Part 13/ IS 4457 Annex F
Resistance to acids and alkalis (with exception of hydrofluoric acid and its compounds)	Declared Value ^f	Test Method Available	Class ULA (Low Conc) Class UHA (High Conc)	
Resistance to Concentrated HNO ₃ & H ₂ SO ₄	Not Available	Loss of mass not exceeas 1.5%	Loss Less Than 1.5%	

TECHNICAL SPECIFICATION FOR DIGITAL DURASTONE TILES				
Characteristics	Requirement as per ISO 13006:2018 ≤ 0.5% Group B I a	Requirement as per IS 15622 :2017 0.08 < E ≤ 3% Group B I b	Our value	Test Method
Dimension & Surface Quality				
Length & Width	± 0.3%	± 0.1%	± 0.10%	ISO 10545-Part 2
Thickness	± 5.0%	± 5.0%	± 4.0%	
Straightness of Side	± 0.30%	± 0.1%	± 0.10%	
Rectangularity	± 0.30%	± 0.1%	± 0.10%	
Surface Flatness				
Center curvature (%) (max.Deviation)	± 0.40%	± 0.5%	± 0.2%	
Edge curvature (%) (max.Deviation)	± 0.40%	± 0.5%	± 0.2%	
Corner warpage (%) (max.Deviation)	± 0.40%	± 0.5%	± 0.2%	
Surface Quality	Min. 95 % of tiles will be free from visible defects	Min. 95 % of tiles will be free from visible defects	Min. 95 % of tiles will be free from visible defects	
Physical Properties				
Water Absorption	Avg. 0.5 %, Individual 0.6% max	Av. 0.08< E ≤ 3 %, Individual 3.3 max	Av < 0.5 %	ISO 10545-Part 3
Modulus of Rupture [N/mm²]	Av 35, Individual 32 min	Av 30, Individual 27 min	Avg.> 35	ISO 10545-Part 4
Breaking Strength in N	Min 1300 N	Min 1100 N	Min 2500 N (400X400) Min 1800 N (300X300)	
Moisture Expansion in mm/m	Test Method Available	0.02	Max,0.02	ISO-10545-Part 10
Scratch Hardness of surface (Mohs)	N/A	Min 5	Min-6	IS 13630 Part-13
Resistance to Deep Abrasion (In mm³)	Max. 175	Min II	Max. 140	ISO 10545 -Part 6
Coefficient of linear thermal expansion from embiant temperature to 100º C	Test Method Available	Max 7 X 10 ⁻⁶ K ⁻¹ max	Max 6 X 10 ⁻⁶ K ⁻¹ max	ISO 10545-Part 8
Thermal Shock Resistance	Required	10 cycle passed	10 cycle passed	ISO-10545-Part 9
Crazing Resistance	N/A	4 cycle @ 7.5bar min	4 cycle passed	ISO 10545-Part 11
Imapct Resistance as Co-efficient of Restitution (COR)	Test Method Available	0.55 Min	Min 0.55	ISO 10545-Part 5
Frost Resistance	Required	Required	100 Cycle Passed	ISO 10545-Part 12
Chemical Resistance (glazed Tiles)				
Stain Resistance	Min Class 3	Not Available	Min Class 2	ISO 10545-Part 14
Resistance to household chemicals	Minimum B	Test Method Available	Class AA	ISO 10545-Part 13
Resistance to acids and alkalis (with exception of hydrofluoric acid and its compounds)	Declared Value ^f	Test Method Available	Required if agreed	

HEAVY DUTY VITRIFIED TILES

PACKAGING DETAIL

PACKAGING DETAIL FOR NON DIGITAL DURASTONE TILES				
Nominal Size	Thickness	Avg. Wt. Per Box (Kg.)	No. of Tiles Per Box	Coverage Area Per Box
600X600 (Stone-16)	16mm	26.2 kg	2	0.72 sq meter / 7.75sq feet
600X600 (Stone-10)	10mm	32.5 kg	4	1.44 sq meter / 15.50sq feet
600X1200 (Largo Series)	9.5mm	30.5 kg	2	1.44 sq meter / 15.50sq feet
300X1200 (Step)	9.5mm	29.2 kg	4	1.44 sq meter / 15.50sq feet
200X1200 (Riser)	9.5mm	20.0 kg	4	0.96 sq meter / 10.33sq feet
600X600 FlagStone	9.0mm	29.2 kg	4	1.44 sq meter / 15.50sq feet
300x300MM (Non Digital)	10mm	15.5 kg	8	0.72 sq meter / 7.75sq feet
300x300MM (Platform & Tactile)	15mm	15.5 kg	6	0.54 sq meter / 5.81sq feet
300x300MM (Plain)	15mm	18.0 kg	6	0.54 sq meter / 5.81sq feet

PACKAGING DETAIL FOR DIGITAL DURASTONE TILES				
Nominal Size	Thickness	Avg. Wt. Per Box (Kg.)	No. of Tiles Per Box	Coverage Area Per Box
600X600 (Digital)	12mm	28.0 kg	3	1.08 sq meter / 11.625sq feet
400X400 (Digital)	11.8mm	20.0 kg	5	0.80 sq meter / 8.61sq feet
300x300MM (Digital)	10mm	15.5 kg	8	0.72 sq meter / 7.75sq feet

The reproduction of tiles in this catalogue is restricted to four color printing only and tiles are not in relative sizes, therefore customers are advised to see the physical sample before placing the order. “ Technical Specification” for Somany wall & floor tiles are applicable only for premium quality tiles. Please inspect all tiles prior to installation. Company will not entertain complaints once tiles are laid/fixed. Complaints will not be entertained for Borders, Highlighters & Motifs.

SOMANY

Ezy Fix
TILE ADHESIVE

HIGH STRENGTH POLYMER MODIFIED TILE ADHESIVE

BENEFITS

- » READY AND EASY TO USE
- » EXCELLENT BONDING WITH ALL SURFACES
- » FAST SETTING
- » SELF-CURING

USES

- » FOR FIXING ALL TYPE OF TILES
- » FOR NEW FLOORING AND RENOVATION
- » CAN BE USED FOR TILE ON TILE
