Marvela
FLORTUFF
collection

Where millennia of formation meet a moment of inspiration, ancient narratives are written in veins and textures. Marvela FLORTUFF collection honours the earth's quiet grandeur, capturing the depth of stone, the whisper of veins, the timeless grace of marble. Available in refined 800x1600mm, 600x1200mm, and 600x600mm sizes, it reflects a design philosophy attuned to modern interiors. From the brilliance of High Gloss, which amplifies colour and design, to the mirror-like sheen of Full Polished that reflects light and heightens visual appeal, from the textured depth of Matt Carving to the gentle softness of velvety Matt, each finish is thoughtfully curated to suit the most discerning tastes.

Whether enriching contemporary spaces or anchoring the elegance of corporate atriums, adorning serene bathrooms or defining dynamic retail environments, elevating modern kitchens or transforming hospitality interiors—Marvela FLORTUFF transcends surfaces into statements.

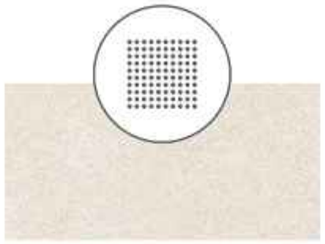

TECHNICAL FEATURES

HIGH GLOSS SURFACE

Our strong high-gloss finish that elevates any space. The reflective surface amplifies light, creating a brighter and more luxurious ambience with Gloss Unit(GU): 95-100.

SUPERIOR MATT SURFACE

Our matt finish surfaces feature a subtle, refined (low-reflection) finish that softens light and minimises glare. This makes them ideal for a variety of settings.

ABRASION RESISTANT FOR MODERATE TO HIGH TRAFFIC AREAS

Our tiles are designed to withstand the test of time, even in high-traffic areas. Their superior abrasion resistance of PEI (Polished - III, Matt - IV) ensures durability and maintains their pristine appearance for years.

EASY TO CLEAN

They are easy to clean and maintain, thanks to their non-porous surface that resists dirt and stains.

DESIGN, PATTERN & SHADE VARIATION GUIDE

Current development efforts have made ceramic tiles resemble and look authentically like natural materials (Stone, Wood, Fabric).

Recognising this situation, it is necessary to be informed of the grade of design & pattern variation that is expected from these products. As a general guide, the design & pattern guide given below classifies the range according to the degree of variation.

V1 Minimal Variation **V2** Slight Variation **V3** Moderate Variation **V4** Substantial Variation

The classification is as follows:

V1 Minimal Variation V2 Slight Variation V3 Moderate Variation V4 Substantial Variation

A Cross-Section of VC Shield Tile

Delivers abrasion resistance more than four times superior to the standards defined in PEI Class 5.

VEILCRAFT (VC) SHIELD

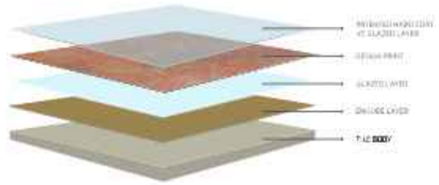

Introducing the revolutionary, patented Veil Craft (VC) Hard Coat Shield Technology - a high-abrasion-resistant glaze composition and the first-ever patented technology in the Indian ceramic industry.Engineered for exceptional surface durability and aesthetic precision, it is ideal for a wide range of commercial and residential applications.

Withstands up to 50,000 revolutions (GVT tiles) and up to 25,000 revolutions (Ceramic tiles) tested as per PEI methodology.

The tiles in this catalogue are reproduced using four-colour printing, and the tiles may not be displayed in accurate sizes. Therefore, we strongly recommend customers check the physical samples before placing an order. The "Technical Specification" applies exclusively to premium-quality Somany wall and floor tiles. Please inspect the tiles thoroughly before installation, as we don't accept any complaints once the tiles have been applied or fixed. Additionally, complaints regarding borders, highlighters, or motifs will not be entertained after purchase.
